PROFILE SUMMARY

Results-driven Software Engineer and Full-Stack Developer with expertise in building scalable mobile/web applications and RESTful APIs. Proficient in the full Software Development Life Cycle, from database architecture to cloud deployment. Proven track record in optimizing backend performance, implementing secure payment configurations, role-based authentication layers, and delivering highly responsive, user-centric multi-lingual interfaces.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, Python, SQL

Frontend/Libraries: HTML, CSS, React.js, React Native, Expo, Redux, Tailwind CSS, Material UI

Backend/Libraries: Node.js, Express.js, FastAPI, RESTful API Design, JWT Authentication, RBAC

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Razorpay API, Render, Vercel

Communication: Hindi, English

EXPERIENCE

Full-Stack Developer

Remote

Custom Client & Open Source Deployments

2025 – 2026

- Deployed the Saini Public School app (React Native/FastAPI) with multi-role dashboards, digitizing workflows for 3+ specific user demographics.
- Integrated Razorpay API with HMAC-SHA256 webhooks, securing 100% of online transactions and automating class-wide fee updates.
- Built the SwiftCart e-commerce platform using MERN stack, reducing API latency by 35% via Redux state optimization.
- Implemented secure JWT authentication and HTTP-only cookies, reducing unauthorized access by 40% on Render and Vercel.

PROJECTS

Saini Public School Management Ecosystem | *React Native, Expo, TypeScript, FastAPI, Razorpay*

GitHub

- Smart Fees Engine: Integrated the Razorpay API with secure HMAC-SHA256 webhook verification to automate class-wide fee tracking and real-time balance updates.
- Multi-Role Dashboards: Implemented strict Role-Based Access Control (RBAC) using FastAPI to provide dedicated, secure interfaces for Administrators, Teachers, Students, and Parents.
- Dynamic Faculty Management: Developed interactive directories featuring rigorous frontend and backend permission locks to restrict modification and deletion privileges exclusively to authorized Admins.
- Seamless Communication: Engineered instantaneous application pipelines to synchronize school broadcasts, official notices, leave workflows, and academic timetables cross-platform.
- Localization Capability: Designed a lightweight React Context API translation matrix enabling instant, real-time user interface toggling between English and Hindi across all layouts.

SwiftCart — E-commerce Platform | *MERN, JWT, Stripe API, Redux*

GitHub

- Architected a scalable full-stack e-commerce solution featuring secure user authentication and persistent shopping cart functionality.
- Integrated Stripe API for seamless payment gateway processing, handling transaction success and error states in a sandbox environment.
- Enhanced dynamic product filtering and search capabilities, enhancing user engagement and overall site navigation efficiency.
- Deployed a responsive, mobile-first interface using Tailwind CSS and Material UI, achieving 100% cross-device performance consistency.

Weather Forecast Engine | *React.js, REST APIs*

GitHub

- Expanded an asynchronous climate application using React hooks to dynamically fetch external API data.

Typing Performance Tester | *JavaScript, HTML, CSS*

GitHub

- Applied an algorithmic browser tool tracking real-time metrics for typing speed and accuracy scores.

EDUCATION

IIIT Manipur

Manipur, India

B.Tech in Electronics & Communication Engineering (Current CPI: 7.05)

2023 – 2027

Govt. Senior Secondary School

Dausa, Rajasthan

Higher Secondary Education (Class XII) – 95.50%

2022

TRAINING AND ACHIEVEMENTS

UAV Drone Bootcamp

IIIT Manipur

Hands-on Aerial Robotics Training

2025

3rd Rank in 10th Board (Sanskrit Department)

Dausa, Rajasthan

Honored by the Board of Secondary Education, Rajasthan (RBSE)

2019

C++ Spoken Tutorial Certification

IIT Bombay

Secured expert rating qualification credential metrics

2024
